HENDERSON, NV 89014-9982

MAILING INSTRUCTIONS

PLEASE USE THIS POSTAGE-PAID MAILER FOR SUBMITTING FILM AND/OR NEGATIVES EXPOSED IN YOUR NISHIKA CAMERA.

We recommend you protect your exposed film rolls by shipping them in the plastic cannisters in which they came.

LIMIT OF LIABILITY

PLEASE READ THIS NOTICE: Submitting any film, print, slide or negative to this firm for processing, printing or other handling constitutes an AGREEMENT by you that any damage or loss by our company, subsidiary, or agents, even though due to the negligence or other fault of our company, subsidiary, or agents, will only entitle you to replacement with a like amount of unexposed film and processing. Except for such replacement, the acceptance by our company, subsidiary and/or agents of the film, print, slide or negative is without other warranty or liability, and recovery for any incidental or consequential damages is excluded.

1. Complete the order form clearly and fully.
2. Enclose in this envelope:
 - Film and/or negatives to be processed
 - Completed order form
 - Full payment (Check or money order, or fill in the credit card section of the order form. No cash, please.)
3. Moisten the flap and press down firmly to ensure a good seal.

FOR NISHIKA 3-D FILM PROCESSING

www.butkus.us
A NOTE ON 3-D CRAFTSMANSHIP, TECHNOLOGY AND COST

Unlike traditional photo-finishing, the processing involved in creating your Nishika 3-D prints is as much an art as a science. While ordinary photos are processed by fully-automated high-volume printers, each Nishika 3-D negative must be individually scrutinized by a skilled technician who carefully analyzes its composition to determine its optimal "key subject plane" of 3-D focus prior to printing.

The information from this determination is then entered into our fully-patented computerized printer, which optically slices each of the four half-frame negatives into strips less than one-thousandth of an inch wide. Next, the printer precisely aligns each strip under one of the hundreds of microlenses which cover our exclusive photographic print material. Then the finished print is carefully inspected. If it does not meet our stringent quality-control guidelines, the entire process is repeated until we achieve the optimal 3-D effect.

Although the specialized craftsmanship involved in this complex processing necessarily increases the cost of your prints, each 3-D photograph you receive is a unique work of art that will be cherished by you and your family for generations. So, although your Nishika 3-D photos are not inexpensive, we are sure that you will find their spectacular beauty and astonishing realism well worth the price.

FAST PROCESSING POLICY

Film sent to Nishika will normally be processed and shipped within 3 business days of receipt. 8 x 10 prints and reprints will be shipped within 5 days of receipt; 8 x 10s and reprints from the same negative require a 7-day turnaround.

Please Note: If a sample print for color balance and density is not included with your reprint or 8 x 10 order, we will not guarantee that your new prints will match the original.

EXTRA PRINTS

Instead of ordering single prints now and reprints later, you can order an extra set of prints at this time for a minimal extra per print charge.

PLEASE READ THIS NOTICE: The submission of any film or print to us for processing or any other purpose will constitute an **AGREEMENT** by you that, if any such film or print is damaged or lost by us or any subsidiary or agent, even though by negligence or other fault, it will be replaced with an equivalent amount of unexposed film. Except for such replacement, the handling of such film or prints by us for any purpose is without other warranty or liability, and recovery for incidental or consequential damages is excluded. Prices subject to change without notice.
